## **Introduction**

EDFI MC maintains a procurement policy to govern the procurement of any contract concluded to obtain, against payment of a price, the supply of goods, the provision of services or the execution of works by a third-party supplier.

As per EDFI MC's procurement policy, the company needs to publish on an annual basis information on procurement contracts of the previous financial year which value exceeded EUR 15,000.00 excl. VAT. This ex-post publication is also required as per a contractual obligation towards the European Commission given that EDFI MC's expenses are to a significant extent financed by budgets made available by the European Union.

All contracts reported in this document have been concluded between EDFI MC and its contractors in accordance with the following principles:

1. Transparency: The company strives for appropriate level of openness and clarity on the procurement policy and its delivery.
2. Competition: Procurement is always performed by use of competition unless there are justified reasons for deviation.
3. Equal treatment and non-discrimination: Reasonable measures are taken to treat interested parties in the same way. Candidates are offered equal opportunities and tenders are subject to the same conditions.
4. Sound financial management: Procurement decisions are taken in accordance with the principles of economy, efficiency, and effectiveness. Suppliers are selected based on price/quality assessment and the assessed value for money.
5. Adequate governance: Formal procedures and controls ensure compliance with procurement policy principles and with the rules for access to funding from the European Union.
6. Proportionality: Measures are taken to ensure that the company does not exceed the limits of what is deemed necessary to obtain its procurement goals.

The overall objective of this procurement report supports the policy's aim to achieve fair and reasonable prices and overall value for money, while also ensuring compliance with relevant rules and regulations and contractual obligations.

This report is published on EDFI MC's website with due observance of the requirements for confidentiality and protection of personal data.

## **Activities excluded from this reporting**

The following activities are out of scope of our reporting requirements as set in our procurement policy:

1. Staff expenses and any expense related to retention of staff.
2. Insurance premiums for pension funds, workmen's compensation and health insurance (excluding service fees due to the insurance provider).
3. The procurement of services in which EDFI MC is involved for practical reasons but for which it was agreed with a third-party to charge the cost fully and directly to that third-party.
4. Procurement of standard bank or financial services needed for the day-to-day operations.
